

# An Evening with the Curator

*Vatican Unveiled in company with  
Archbishop Bernard Hebda*

**Step beyond the gallery ropes and into the  
living history of the Vatican.**

You are invited to an exclusive evening with Fr. Richard Kunst for an intimate and immersive experience rarely offered to the public.

Throughout the evening, Fr. Kunst will share the remarkable stories behind the collection—how these sacred and historic objects were acquired, their journeys through centuries of Church history, and the moments, people, and papacies they represent. Many of these stories are not told on the exhibit floor.

This evening is a rare opportunity to engage directly with the curator, experience the collection at a deeper level, and conclude Vatican Unveiled with an evening worthy of its significance.
